Mermaid Glamour Make Up Kit

What's Inside

Mermaid Glamour Make Up Kit

INSTRUCTIONS

Makeup can be a fun form of self-expression and creativity for kids, especially when enjoyed with an adult or friends.

Here are some tips to get the most out of this Mermaid Glamour Make Up Kit from Purple Ladybug Novelty.

SKIN PREPARATION

Before applying makeup, use a gentle face cleanser and warm water to wash the face.

After washing, some people with dry skin enjoy applying a light facial lotion for sensitive skin (not included). If that's you, wait at least 30 minutes for the lotion to absorb before applying makeup!

BUILDABLE COVERAGE

When applying makeup, apply in light layers. Our makeup is buildable, apply a light layer, and if you would like a darker look, apply another light layer.

APPLYING BLUSH

Blush will give you a rosy glow on your cheeks. To apply it, smile! and then apply the blush to the apples of your cheeks.

Use the large brush to apply the blush. Apply in thin layers. You can always do more layers if you want darker color.

Use soft strokes from the inside of the cheek out towards the outside of your face. Make sure it is even on both sides.

TIP: Try using more than one color of blush and blend together to create a shade just for you!

APPLYING EYESHADOW

The Seashell compact has the eyeshadows inside along with an applicator. There is an extra applicator in the kit as well.

Start off by sweeping a light color of eyeshadow across your eyelids and upwards towards your brow.

If you want, follow with a darker color in the crease of your eye. Use one of the larger brushes to blend the eyeshadow colors in really light gentle strokes.

APPLYING LIPSTICK

To apply the lipstick, open your lips in an "O" shape and dab or draw the lipstick onto your lips. Blend it by rubbing your lips against each other.

If the lipstick is too thick, dab some of it off with a tissue or the next time, try putting on a light coat of lip gloss before the lipstick.

APPLYING LIP GLOSS

For best results:

- Apply the lip gloss to your lips with most in the middle of your lower lip and then rub lips together to spread.
- Avoid applying gloss or lipstick above the natural lip line.
- Blot any excess on a tissue paper.

TIP: You can apply the lip gloss on its own, or with lipstick. Experiment and find a look that you love!

APPLYING NAIL POLISH

For best results follow these steps:

Remove any old polish from your nails, and trim/file your nails so they are nice and even and smooth.

For a mini-spa experience, take a bowl with warm water and soak your nails in for 3-5 minutes. You can use a scrub to exfoliate your hands for an extra pampering.

Moisturize your cuticles and skin with your favorite moisturizer.

Have an adult use a swipe of nail polish remover to clean the nail surface of any moisturizer before you start!

To apply the nail polish, lay your hand flat on a table, and apply using the brush in the cap.

Apply in small even strokes, going from the base of the nail near the cuticle towards the end of the finger.

Apply in thin layers and let each layer dry before moving on to the next layer (if needed).

If you get some on your skin, you can use a damp cotton swab to clean it up.

REMOVING MAKEUP

For small mistakes: If you accidentally smear the makeup while you're applying it you can wipe it with a cotton swab, damp tissue or baby wipe. (Wait for the area to dry before re-applying.)

Use a mild cleanser: Choose a mild facial cleanser that is for sensitive skin.

Gently splash your face with water and use a pea-sized amount of cleanser.

Create a lather by rubbing your hands together, and gently rub on your face.

Wash the soap off with water and pat dry.

Use gentle makeup remover wipes to remove eye makeup. Close your eyes and wipe the makeup in a very gentle downward motion. Be careful not to get it in your eyes.

STORING THE MAKEUP

Make sure all lids are tightly closed, and caps for lipsticks and lip gloss are tightened after every use!

Leaving the caps open may cause the product inside to dry out and affect the results.

Store all your makeup and brushes in the beautiful shimmery carrying case (included).
